HOT PAPRIKA FROM LA VERA P.D.O. 1921

Denomination of the product:	Hot paprika from la vera Protected Designation of Origin 1921			FR-FTC-41 (17/5/18) Rev 3	
Raw material description:	Paprika from La Vera Protected Designation of Origin is obtained by milling red peppers of "ocáleas" varieties and, also, bola variety, all of them belonging to "Capsicum annuum L.". All of the peppers used are harvested clean, health and ripe, with the variety's characteristic color, disease and pest free, dried using oak and holm oak wood, by the traditional drying system from La Vera. All the peppers come from the designed area by the P.D.O. specifications. Hot paprika is produced using Jeromín, Jariza and Jaranda varieties.				
Organoleptic characteristics:	- Color: Brownish red Aroma: Smoked - Taste: Hot and smoked.				
Physical and chemical characteristics:	Moisture:	< 14 %	According to the P.D.O. "Pimentón de la Vera " specifications."		
	Total ashes:	< 9%			
	Total insoluble ashes:	< 1%			
	Ether extract:	< 23%			
	Brute Fiber:	< 28 %			
	Color (ASTA):	>90	1		
	Artificial dyes:	Absence			
Micotoxins:	Aflatoxins (B1+B2+G1+G2):	< 10μg/kg Regula	ation (EC) no. 165/2010		
	Aflatoxin B1:	< 5µg/kg Regula	ation (EC) no. 165/2010		
	Ocratoxin A:	< 20 μg/kg Regul	g Regulation (EC) no. 1137/2015		
Contaminants:	Pesticides:	According to EC regulations			
	Heavy metals:	Regulation (EC) No	on (EC) No 1881/2006, RD 2242/1984		
	Inorganic Tin:	< 200 ppm	< 200 ppm		
	Mercury:	< 0.02 ppm (dry w	ı (dry weight)		
Microbial	Salmonella Absence in 25g E. coli < 10 ufc/g Sulphite-reducing Clostridium < 1000 ufc/g				
characteristics:					
Ingredients:	Sunflower oil may be added up to 3%.				
Foreseen use:	As a condiment or as an ingredient for human consumption.				
Non foreseen	Direct consumption in big amounts.				
use:					
Sensitive	None				
consumers:	Hadal and Fandamark Linear and HOF NIC 104 0015				
Halal certificate:	Halal certified product; License number: HQF-INC-124-2015				
Kosher:	Kosher certified Absence of all the allergens listed in the annex II in (EU) regulation No. 1169/2011.				
List of allergens:	It does not contain any GMO.				
GMO:	Preserve it in a fresh and dry storage room. Avoid sunlight keeping it properly sealed.				
Conditions of storage and	Treserve in in a mesh and ary storage room. Avoid somigni keeping it properly sedied.				
transport:					
Best before date:	Best before date: 24 months since production date. It is shown in the label. Product's shelf-life once opened will be the same, as long as it is preserved properly				
Packaging:	 - 75g tin cans with plastic dispenser cover packed in carton (40 units per box) and 750g tin cans packed in carton (10 units per box). - 1000 g three layer bags (Aluminium, polyethylene and polypropylene) packed in carton (10 units per box).
